Summary

I am a passionate MERN Stack Developer with expertise in React.js, Node.js, Express.js, and MongoDB. I build high-performance, scalable, and user-friendly web applications that solve real-world problems. My focus is on clean code, optimized architecture, and seamless user experience.

With a deep understanding of frontend & backend technologies, I have developed and deployed multiple full-stack applications, integrating modern UI/UX practices and robust backend solutions. My expertise includes:

- ✓ Full-Stack Web Development – From frontend to backend, ensuring seamless performance.
- ✓ API Development & Integrations – Building secure and efficient backend systems.
- ✓ Database Optimization – Structuring MongoDB for performance and scalability.
- ✓ Performance-Driven Development – Writing optimized and scalable code.

I am actively seeking remote or on-site opportunities where I can contribute my skills, work with innovative teams, and build cutting-edge web solutions.

Let's connect and create something amazing!
